

RESOLUTION NO. 2183

WHEREAS, the Albany City Council has reviewed the draft Albany-Draperville Waste Water Facility Plan prepared by CH2M Hill dated March, 1980; and

WHEREAS, the Albany City Council has determined that further planning for sewer construction should be limited to providing sewer capacity for the Facility Planning Area and with regard for controlling the urban development of said area to first encourage the extension of services outward from the present city limits.

NOW, THEREFORE, BE IT RESOLVED that the Albany City Council approves the implementation of Alternate 2B described in the draft Facilities Plan and directs the City Manager to prepare an application for submission to the Environmental Protection Agency for a Step II (design) Grant.

DATED THIS 9TH DAY OF JULY, 1980.

Richard S. Allen  
Mayor
