

RESOLUTION NO. 7328

A RESOLUTION REVISING TRANSPORTATION SYSTEM DEVELOPMENT CHARGES FOR IMPACTS TO THE ALBANY TRANSPORTATION SYSTEM, REAFFIRMING THE APPEAL FEE, AND REPEALING RESOLUTION NO. 7227

WHEREAS, through the previous adoption of ordinances establishing and amending Albany Municipal Code (AMC) 15.16 regarding system development charges (SDC), the Albany City Council has duly declared its intent to comply with the provisions of ORS 223.297 through 223.314; and

WHEREAS, a methodology for the calculation of an improvement and reimbursement fee SDC for the transportation system in Albany was adopted in 2011 and was modified to reflect changes in the project lists in 2013, 2015, 2017, 2018, and 2020 and was most recently modified and adopted on September 28, 2022, to enact a scaled system for assessing residential SDC fees as specifically described in Resolution No. 7140; and

WHEREAS, the adopted methodology resulted in a maximum allowable fee of \$11,911 based on February 2010 dollars, which if indexed to current rates (April 2024) is equivalent to \$21,341 (using index ratio  $15,492.56/8647=1.792$ ); and

WHEREAS, Section 15.16.050(5) of Ordinance 5306 allows for the annual adjustment of the herein established fees in accordance with the change in the Engineering News-Record (ENR) Seattle Construction Cost Index (CCI); and

WHEREAS, the Albany City Council deems it desirable to increase the existing fees to reflect inflation relative to the increase in the ENR Seattle CCI; and

WHEREAS, the ENR Seattle CCI used in Resolution 7227 was 15,031.28, and the April 2024 ENR Seattle Construction Cost Index to be applied for purposes of this resolution is 15,492,056 (index ratio =  $15,492.56/15,031.28= 1.0307$ ).

NOW, THEREFORE, BE IT RESOLVED by the Albany City Council that Resolution No. 7227 is hereby repealed as of the effective date of the revised charges; and

BE IT FURTHER RESOLVED that transportation system development charges are hereby amended as shown in Exhibit A; and

BE IT FURTHER RESOLVED that an appeal fee is hereby reaffirmed as described herein; and

BE IT FURTHER RESOLVED that the effective date of these charges shall be **July 1, 2024**.

DATED THIS 12TH DAY OF JUNE 2024.

City Clerk

EXHIBIT A

**Transportation System Development Charges**

BASE FEE

The base unit for the Transportation System Development Charge improvement (SDCi) and reimbursement (SDCr) fee will be p.m. peak hour trip end as defined in the latest version of the Trip Generation manual by the Institute of Transportation Engineers (ITE).

The adjusted base fee for a single trip is a combination of the adjusted improvement and reimbursement base fees as shown below.

<b>Base SDCi Fee</b>	<b>Base SDCr Fee</b>	<b>Total Base Fee for a Single Trip End</b>
<del>\$4,404.94</del> <b>\$4,540.18</b>	<del>\$757.20</del> <b>\$780.45</b>	<del>\$5,162.15</del> <b>\$5,320.63</b>

*Base Fees are indexed to April 2024 ENR Seattle CCI (15,492.56)*

CALCULATING THE SYSTEM DEVELOPMENT CHARGE

Residential SDC fees are categorized into a four -tiered system based on dwelling unit size ( finished area in square feet) as shown in the table below. The fees are computed by multiplying the base SDC fee for a single trip end by three separate factors: 1) The single- family residential ITE Peak PM trip rate 2) the ITE adjustment factor for each tier 3) the pass by factor.

A sample SDC calculation for a single dwelling home (ITE Category 210) is shown below.

<b>Tiers for Single Dwelling Residential (ITE Code 210)</b>	<b>Dwelling Units</b>	<b>Base Fee per Trip<sup>1</sup></b>	<b>ITE 210 Peak PM Trip Rate<sup>2</sup></b>	<b>ITE Adjust ment Factor<sup>3</sup></b>	<b>Pass By Factor<sup>4</sup></b>	<b>SDC Fee<sup>1</sup></b>
Tier 1 (<=1000 SF)						
Improvement Fee	Per unit	<del>\$4,404.94</del> <b>\$4,540.18</b>	0.94	0.63	1	<del>\$2,609</del> <b>\$2,689</b>
Reimbursement Fee	Per unit	<del>\$757.20</del> <b>\$780.45</b>	0.94	0.63	1	<del>\$448</del> <b>\$462</b>
Total Fee	Per unit	<del>\$5,162.15</del> <b>\$5,320.63</b>				<del>\$3,057</del> <b>\$3,151</b>
Tier 2 (1001 to 1250 SF)						
Improvement Fee	Per unit	<del>\$4,404.94</del> <b>\$4,540.18</b>	0.94	0.81	1	<del>\$3,354</del> <b>\$3,457</b>
Reimbursement Fee	Per unit	<del>\$757.20</del> <b>\$780.45</b>	0.94	0.81	1	<del>\$577</del> <b>\$594</b>
Total Fee	Per unit	<del>\$5,162.15</del> <b>\$5,320.63</b>				<del>\$3,930</del> <b>\$4,051</b>
Tier 3 (1251 to 3000 SF)						
Improvement Fee	Per unit	<del>\$4,404.94</del> <b>\$4,540.18</b>	0.94	1.00	1	<del>\$4,141</del> <b>\$4,268</b>
Reimbursement Fee	Per unit	<del>\$757.20</del> <b>\$780.45</b>	0.94	1.00	1	<del>\$712</del> <b>\$734</b>
Total Fee	Per unit	<del>\$5,162.15</del> <b>\$5,320.63</b>				<del>\$4,852</del> <b>\$5,001</b>
Tier 4 (> 3000 SF)						
Improvement Fee	Per unit	<del>\$4,404.94</del> <b>\$4,540.18</b>	0.94	1.34	1	<del>\$5,548</del> <b>\$5,719</b>
Reimbursement Fee	Per unit	<del>\$757.20</del> <b>\$780.45</b>	0.94	1.34	1	<del>\$954</del> <b>\$983</b>

## SDC CREDITS

Pursuant to Albany Municipal Code Section 15.16.090, a credit against the transportation SDC fee shall be given in the following situations:

### A. Credit for prior use:

Pursuant to AMC 15.16.090 (1), a credit against the reimbursement and improvement fee portions of the SDC shall be given in an amount of the SDC<sub>i</sub> and SDC<sub>r</sub> calculated for the existing use if it is less than the SDC<sub>i</sub> and SDC<sub>r</sub> calculated for the proposed use. If the change in use results in the SDC<sub>i</sub> or SDC<sub>r</sub> for the proposed use being less than the SDC<sub>i</sub> or SDC<sub>r</sub> for the existing use, no SDC<sub>i</sub> or SDC<sub>r</sub> shall be required for that fee portion; however, no refund or credit shall be given.

### B. Credit for the cost of a qualified public improvement associated with the development:

Pursuant to AMC 15.16.090 (2), a credit against the improvement fee portion of the SDC shall be given for the cost of a qualified public improvement required as a condition of development approval. A qualified public improvement must also be identified in the funded section of the project list in *Figure A: SDC Eligible Projects Funded by the Adopted Fee Schedule* (see below). A funded project can be either wholly or partially funded with SDC<sub>i</sub> fees. Projects can move between the funded and unfunded sections according to AMC 15.16.060(3).

The credit shall not exceed the dollar amount (adjusted annually using ENR Seattle CCI) in the SDC column in *Figure A* associated with a qualified improvement in the funded projects group. If the credit exceeds the amount of TSDCi to be paid by the development, then the excess credit may be applied against transportation improvement fees that accrue in subsequent phases of the original development project. In summary, credits are possible only for projects identified in *Figure A* as having SDC funding and only to the extent that it is SDC funded.

On-site: A project that meets these qualification criteria and is located in whole or in part, on or contiguous to the property, and that is required to be built with greater capacity than is necessary for the particular development needs and exceeds the minimum standard facility size, will have reserve capacity. The applicant shall have the burden of demonstrating that a particular qualified transportation improvement will have a reserve capacity. The Highway Capacity Manual (HCM), or other City-approved traffic engineering methodology, shall be the approved method for calculating reserve capacity. The reserve capacity shall be expressed as a percent of the construction cost for said improvement. That portion of the construction cost that represents the reserve capacity, when multiplied by the percent of said project funded with the SDCi fee as identified in *Figure A*, will be the estimated credit. The actual credit will be the lower of the estimated credit and the dollar amount (adjusted using ENR Seattle Construction Cost Index) in the funded SDC column in *Figure A* associated with said project.

Off-site: A project that meets these qualification criteria that is not located on or contiguous to property (an off-site improvement) is qualified for a SDCi credit. The credit shall be the lower of the actual construction cost or the dollar amount (adjusted using ENR Seattle CCI) in the funded SDC column in *Figure A* associated with said project.

- C. Credit for reducing the number of trip ends the development will generate using automobiles:

Transit or Pedestrian: A credit against the improvement fee portion of the SDC shall be possible if the development is in an established transit or pedestrian district or if a program to be instituted in connection with the development is determined by the City Engineer to materially reduce the number of trip ends the development will generate using automobiles and the extent of improvements necessary to serve the development and that the reduction will continue for at least 10 years after the development is occupied.

The reduced SDC will be calculated based upon the number of trip ends the development will generate with the trip end reduction program in effect. Before granting the credit, the City shall receive assurances that will bind the owner and the owner's successors to perform the program for the time required.

- D. Credit for reducing the number of peak hour trips the development will generate using automobiles:

Off-Peak Work Hours: A credit against the improvement fee portion of the SDC shall be possible if a program to be instituted in connection with the development is determined by the City Engineer to materially reduce the number of peak hour trips the development will generate using automobiles and the extent of improvements necessary to serve the development, and that the reduction will continue for at least 10 years after the development is occupied. The reduced SDC will be calculated based upon the number of trip ends the development will generate with the peak hour trip reduction program in effect. Before granting the credit, the City shall receive assurances that will bind the owner and the owner's successors to perform the program for the time required.

#### APPEAL PROCEDURE AND FEE

Pursuant to Albany Municipal Code Section 15.16.100(5), an appeal fee of \$100 per appeal is hereby established.

Appeal submittal by parties appealing their calculated fee (AMC Section 15.16.100(3)) shall:

- A. Conform to AMC Section 15.16.100 procedures; and
- B. Use standard study methodology and data collection forms and procedures for conducting a local trip generation study described in Albany's adopted "Traffic Impact Study Guidelines" and the ITE Trip Generation Manual; and
- C. Be prepared by or under the direct supervision of a Professional Civil or Transportation Engineer currently licensed to practice within the State of Oregon, and with special training and experience in transportation engineering and planning. The engineer shall certify the document by providing a signature and seal of approval.

### Figure A: SDCi Eligible Projects Funded by the Adopted Fee Schedule

Costs are based on the *Engineering News Record (ENR)* Construction Cost Index (Seattle) in February 2010 of 8647.

*Year 1-10 funded projects are in column 7. All short- and mid-term projects are funded.*

*Year 11-20 funded projects are in column 8.*
