**INDUSTRY-**Industrial diversification has been the key factor in the rapid growth and development of Albany. Recent payroll additions have come from Kraft paper production, featuring wood waste utilization, and from the highly imaginative reactive metal field. In the latter, two corporations are in production of Zirconium, Titanium and related metals. Albany location of the U S Bureau of Mines experimental station will undoubtedly attract other industry in the experimental field. Several plants manufacture wood products from the timber resources of the area. Agriculture, long a dominant factor in the economy continues to grow through Albany's several food processing plants. This also holds true of the seed processing business. Another link in the processing chain is the dairy and meat manufacturing facilities. More and more light industry is settling in the area to add even more dollars to the well rounded and growing Albany economy. With abundant water, low cost power and economical well-situated industrial sites, the Albany future is decidedly bright. This well can be the Brightest Spot in Oregon's Future.

**EDUCATION-**In Albany-1 Union High School (4 grades), 1 Junior High School, 6 Elementary Schools, 1 Parochial Elementary School. Albany Fringe-6 Elementary Schools. Availability of schooling is adequate for the present. Progressive yearly planning assures continued modern facilities to keep pace with area growth. The entire Oregon Education system is considered to be one of the finest in the nation.

**CHURCHES-**Albany has 26 churches representing 26 denominations.

**PARKS & PLAYGROUNDS-**150 acres of park land, 50 acres are developed. The developed area contains 5 playgrounds, 2 picnic parks, 2 tennis courts, 2 wading pools and 1 municipal swimming pool.

**LIBRARY-**City library contains over 35,000 volumes and offers a complete library service.

**CITY RECREATION-**One of the finest in the entire state. Fully developed and supervised youth program. 3000 individuals participate in various programs. 600-700 play organized baseball and softball. 50 activities are available to the children of Albany. Highly successful learn-to swim campaign.

**UTILITIES-Electric Power-Pacific Power & Light Co, Telephone-Pacific Telephone & Telegraph Co, Water-Pacific Power & Light Co, Natural Gas-Northwest Natural Gas Co, Garbage, Albany Sanitation Co. In all cases the utilities have the latest facilities and are more than adequate. No deposits for service are required on approved credit.**

**WATER-**Abundant supply of soft mountain water with complete treatment to State of Oregon specifications.

**TRANSPORTATION-Rail-Southern Pacific Main Line (passenger & freight). Oregon Electric (freight only.) Bus-Greyhound & Trailways. Air-United Airlines, 24 miles north. West Coast Airlines, 11 miles west. United, Western, Northwest Pan American, West Coast, Alaska and PNA at Portland International Airport 80 miles north. Truck-All major trans-continental lines as well as regional and state-wide trucking concerns. Three local warehouses and two local transfer companies.**

## A VITAL SEGMENT OF THE ALBANY ECONOMY

The Western Kraft plant is located on a 100-acre tract about  $3\frac{1}{2}$  miles north of Albany, Oregon. This area was selected primarily because of its central location in relation to the supply of wood chips from the surrounding timber areas. The plant is designed for the production of quality paper board from virgin douglas fir that was formerly burned and products are utilized in the manufacture of paper boxes.
