How To Get Along With People

Keep skid chains on your tongue; always say less than you think; cultivate a low, persuasive voice. Make promises sparingly and keep them faithfully, no matter what it costs you. Praise good work done, regardless of who did it. If criticism is merited, criticize helpfully, never spitefully. Preserve an open mind on all debatable questions. Discuss but don't argue. It is a mark of superior minds to disagree and yet be friendly.

STRETCH YOUR "AD" DOLLARS

GENERAL INFORMATION

Albany, the seat of fertile and lovely Linn County, is the "Hub of the Willamette Valley". It has excellent transportation facilities, beautiful homes, up-to-date schools, and outstanding civic institutions. Easy-to-reach Albany is at the Junction of U.S. Highways #99 and #20, twenty-two miles south of Salem and sixty-nine miles south of Portland.

Agriculture is highly diversified and the climate relatively free from extremes. The land, a combination of green valleys and timbered hills, produces bumper harvests of fruits, vegetables, filberts, grains, and other crops. Irrigated pastures provide lush feed for the herds of dairy and beef cattle. Poultry and poultry products, including turkeys are money-makers too. Meat packing plants and milk condensary are located in fast-growing Albany.

Linn County is also the home of a vast timber empire, with sawmills, plywood mills, and a furniture factory busy converting tall trees to finished products. Albany is also the regional headquarters of the U. S. Bureau of Mines. Numerous other industries indicate a progressive outlook.

Outdoor recreation at its finest is yours here. A large portion of the county is being set aside to provide an unspoiled wilderness area for escape from crowded, noisy cities. Beautiful Clear Lake is nearby; mountain scenery, deep forests, lava beds, Alpine lakes, sparkling streams, excellent hunting and fishing are all at hand. The popular Hoodoo Ski Bowl is an easy drive from Albany, and the blue Pacific with its scenic beaches is not far.

Albany and Linn County offer a way of life that is truly happy and contented.

WHY WORRY
about the young adults
?

TWO-THIRDS of the POPULATION GROWTH in the next five years will be in the 20 to 34 age group. THE BABY BOOM OF 25 YEARS AGO IS THE YOUNG MARRIED BOOM OF TODAY. Besides their number, let's look at their profile.

1. It's common knowledge that the birth rate is declining.
2. It's also a fact that marriages are still on the increase, Oregon's marriage rate is increasing at twice the national rate. (Source: U. S. Bureau of Census)

The result is . . . MORE SPENDABLE INCOME. In fact, income per capita is on the increase too.

Young, growing, just-starting-out families are just about everybody's top selling market. They need everything yesterday, they'll buy more today, and they'll outgrow it all tomorrow.

> Collectively, retail trade has estimated 65% of the major purchases are made in a person's life between the ages of 18 and 35.

David Yunich, President of Macy's contends that during the first year of marriage, couples spend more than they'll spend at any other time of their lives, and on permanent, not makeshift merchandise.

HOW DO YOU REACH THEM?

The National Association of Broadcasters reports from the Television Information Office, that research shows Young Adults and Men under 50 are the hardest audience for TV to reach. Women over 50 do the most TV viewing of any American.

Less than 8% of the American population under 21 read any newspaper at all. Readership does get somewhat better between 21 and 30, but still it's alarmingly low. In this day of the fast moving society, the working wife, the increasing activity outside the regular job or school, who has time to read all of a newspaper?

The most responsive American is between the ages of 15 and 39. This also happens to be today's greatest radio audience. Why? Because radio is the contemporary outlet of expression, the instant source of information. Something is always going on.

any way you look at it
