VITAL STATISTICS AND INFORMATION

“Hub of the Willamette Valley”

Albany, the seat of fertile and lovely Linn County, is the “Hub of the Willamette Valley”. The first white settlers came to Albany in 1846. Two years later, Walter and Thomas Monteith named the city after their former home in New York.

Today Albany is a thriving valley town, more eager than many communities to welcome new, clean industry.

Albany is in the center of Oregon’s Willamette Valley, at the confluence of the Willamette and Calapooia Rivers. It is at the intersection of Interstate 5 and U.S. Highway 20. Portland is 70 miles north and Eugene is 40 miles to the south.

The community’s present economy relies heavily on three industries: Rare metals, food products, lumber and wood products. The production of rare metals such as zirconium, molybdenum, columbium and titanium, has been important to the Albany area ever since the Bureau of Mines established a research facility here in 1943. Teledyne Wah Chang employs more than 1,500 people in the area with an annual payroll of more than \$50 million. Other leading contributors to the economy are Rem Metals Corporation, Oregon Metallurgical Corporation and Northwest Industries, Inc.

Albany leads other Linn County cities in employment in food and related products, providing 95 percent of the county employment in food processing. However, only five percent of Albany’s total employment is in this sector. Oregon Freeze Dry Foods, Inc. is the largest multi-purpose freeze drying plant in the United States with a local payroll of almost \$3 million.

Smoke-Craft is the world’s largest producer of beef jerky with an annual payroll of \$2¼ million. The Stokely-Camp Albany plant, processing frozen strawberries, green beans, corn and squash, employs 400 people at peak season.

Seven percent of Albany’s employment is in the wood products industry. Georgia-Pacific and Boise Cascade have area mills and plants, as do Willamette Industries, Southwest Forest Industries and the Simpson Timber Company. Golden West Homes produces large double-wide mobile homes under various brand names and R. Veal & Son is the west’s oldest furniture factory.

The American Can Company in nearby Halsey, Hewlett-Packard in Corvallis and Mt. Jefferson Woolens in Jefferson also contribute significantly to Albany’s economy.

Almost 20 percent of the employment in Albany is in government, half of which is in education. And Linn County is the largest grass seed producing county in Oregon and the Willamette Valley is called “The Grass Seed Capital of the World”.

In addition to trying to attract new industry to the community, Albany folks are active, participating in parades and festivals year-around. Albany boasts the largest Veterans’ Day Celebration in the United States and it is noted for its World Championship Timber Carnival, attended annually by more than 150,000 people and for its Spring Arts Festival, that attracts more than 100,000 people each year.

VITAL STATISTICS (Continued)

Numerous buildings are converted into informal art galleries, and entertainment is provided in these. In the evening, dramatic and musical events are held throughout the city.

The Art of GETTING ALONG

Sooner or later, a man, if he is wise, discovers that life is a mixture of good days and bad, victory and defeat, give and take. He learns that it doesn't pay to be a sensitive soul; that he should let some things go over his head like water off a duck's back. He learns that he who loses his temper usually loses out. He learns all men have burnt toast for breakfast now and then, and that he shouldn't take the other fellow's grouch too seriously. He learns that carrying a chip on his shoulder is the easiest way to get into a fight. He learns that the quickest way to become unpopular is to carry tales and gossip about others. He learns that buck-passing always turns out to be a boomerang, and that it never pays.

He comes to realize that the business could run along perfectly well without him. He learns that it doesn't matter so much who gets the credit so long as the business shows a profit. He learns that even the janitor is human and that it doesn't do any harm to smile and say "Good Morning", even if it is raining. He learns that most of the other fellows are as ambitious as he is, that they have brains that are as good or better, and that hard work and not cleverness is the secret of success. He learns to sympathize with the youngster coming into the business, because he remembers how bewildered he was when he first started. He learns not to worry when he loses an order, because experience has shown that if he always gives his best, his average will break pretty well. He learns that no man ever got to first base alone, and that it is only through cooperative effort that we move on to better things. He learns that bosses are no monsters, trying to get the last ounce of work out of him for the least amount of pay, but that they are usually fine men who have succeeded through hard work and who want to do the right thing. He learns that folks are not any harder to get along with in one place than another, and that the "getting along" depends about ninety-eight per cent on his own behavior.

**It's an admirable goal to shoot for in publishing
City directories...**

**But - with the thousands of subscribers to be listed,
changed addresses and new numbers, we hope you
understand how an error could occur.**

**Your name, address and telephone number in this
directory likely are correct. But, if by any chance they
are not, you'll do us a favor by telephoning or writing
our business office.**

**We'll correct our records promptly so it will appear the
way it should in the next issue.**
