Important information about your vision benefits

Your plan includes coverage for vision services. To make the most of those benefits, it's important to keep in mind the following:

In-network Providers: PacificSource is able to add value to your vision benefits by contracting with a network of vision providers. Those providers offer vision services at discounted rates, which are passed on to you in your benefits.

Paying for Services: Our provider contracts require in-network providers to bill us directly whenever you receive covered services and supplies. Providers will verify your vision benefits.

In-network providers should not ask you to pay the full cost in advance. They may only collect your share of the expense up front, such as copayments and amounts over your plan's maximum benefit. If you are asked to pay the entire amount in advance, tell the provider you understand they have a contract with PacificSource and they should bill PacificSource directly.

Sales and Special Promotions (sales and promotions are not considered insurance): Vision retailers often use coupons and promotions to bring in new business, such as free eye exams, two-for-one glasses, or free lenses with purchase of frames. Because in-network providers already discount their services through their contract with PacificSource, your plan's in-network benefits cannot be combined with any other discounts or coupons. You can use your plan's in-network benefits, or you can use your plan's out-of-network benefits to take advantage of a sale or coupon offer.

If you do take advantage of a special offer, the in-network provider may treat you as an uninsured customer and require full payment in advance. You can then send the claim to PacificSource yourself, and we will reimburse you according to your plan's out-of-network benefits.
